

GT8400

NABCO Hermetic Swing Door

Feature

- Works with new or existing door frames
- Works with butt-hung, offset pivot or center pivot door without requiring the special linkage making it easy to install
- Optional length headers for improved appearance
- Heavy-duty spring closer
- Heavy-duty all steel motor and mechanical gear box outperforms the competition
- Panic breakout available for center pivoted doors – allows in-Swinging doors to swing out in case of emergency
- Radiation Shield
